Title of Change: Update GES DAAC baseline documents

CCR 04-0407 will not be implimented at GSFC. CCR 04-0407 was primarily a fix for NSIDC. GSFC does not implement DPL web access (i.e., drill down), hence our customer does not see the need to impliment functionality described with in the original CCR. Specifically, none of the steps will be implemented within CCR 04-0407. This CCR is written in accordance to Landover"s process to identify deviations from requested baseline changes. See CCR 04-0407 for more details.
